Team Green Penguin

Sustainability At Your Fingertips

An app that scans products to display their ingredients, inform users about the product's sustainability, and educate them on sustainability in general.

“We want to help people to have greater environmental awareness by avoiding climate-damaging goods and buying more sustainable products.” - Team GreenPenguin

Future Workplace

mental health working from home

Our app is an AI assistant designed to support people working from home. It helps organize their day, analyzes work habits to prevent burnout, and connects remote workers through extracurricular activities.

Adventurous

The Mystery of the Hidden Caverns

"Adventurous" is an exciting 2D platformer game in which you control a brave miner bear through a dangerous cave.
Your task is to collect valuable ores, especially emeralds, while overcoming all the obstacles and dangers in the cave.
Sharp rocks and deep ravines lurk on your way, which you must skillfully overcome to reach your goal.
